EXPERIENCE

GRADUATE RESEARCH ASSISTANT

UT Southwestern Medical Center | Dallas, TX | May 2024-Current

- Analyzed mild Traumatic Brain Injury (mTBI) data for 1000+ individuals for the purpose of predicting recovery time using machine learning.
- Worked with Dr. Kristin Wilmoth to develop statistical methodologies for neuropsychology studies.

GRADUATE RESEARCH ASSISTANT

Southern Methodist University | Dallas, TX | October 2023-Current

- Performed research alongside Dr. Kyle Roberts in collaboration with Children's Health The Andrews Institute on concussion data.
- Used Python to generate machine learning models to predict protracted recovery time.

BRIDWELL ECONOMIC INSTITUTE INTERN

Southern Methodist University | Dallas, TX | August 2021 - December 2022

- Assisted in the operations and logistics of economic seminars and symposiums hosted by the Bridwell Institute
- Analyzed cutting-edge economics papers and current market data to aid faculty in their research projects, including performing literature reviews and data collection
- Performed independent econometric research regarding the relationship between economic freedom and interest variables such as employment, income, etc.

FINANCIAL ANALYST INTERN

VMG Health | Dallas, TX | Summer 2022

- Performed research regarding market supply and demand for physician needs assessment reports
- Used financial modeling to calculate fair market value physician services contracts
- Interacted with clients to gather data and consult on specifications of fair market value contracts

DATA SERVICES INTERN

Blue Learning | Lewisville, TX | Summer 2021

Blue Learning provides management services in support of charter school operations.

- Worked with the director of Data Services to modify SQL reports used to collect data for state reporting purposes
- Created and implemented a system of auto-gathering, formatting, and generating reports in Google Spreadsheets for collecting and analyzing ECDS (Early Childcare Data System) information from campuses
